

NEWS RELEASE

UOB (China) opens Chongqing branch to support the growing customer needs in western China

Chongqing, China, 19 September 2014 - United Overseas Bank (China) (UOB (China)) today opened its 16th banking network in China in Chongqing Municipality, to meet the growing demand for financial services from businesses and affluent individuals in the western region.

The UOB Chongqing branch will provide wholesale banking and financing services to businesses, as well personal banking and wealth management services.

Mr Eric Lian, President and Chief Executive Officer of UOB (China) said that as a fast-developing city in western China, Chongqing is an increasingly important business centre for the Bank's corporate customers. According to the *UOB Asian Enterprise Survey 2014*¹, 40 per cent of Chinese enterprises are planning to expand in western cities.

“Strong economic growth in the western region is spurring successful local businesses to expand and is attracting investment from companies across China. We are also seeing more demand for personal banking services there because of growing consumer affluence,” said Mr Lian.

Chongqing's economy grew 10.9 per cent in the first half of 2014, the highest growth rate among all 31 provinces and cities in China².

¹ This survey was conducted by UOB in February and March 2014 among 1,024 Asian enterprises to understand how they view challenges and opportunities in the region, as well as their plans for growth.

One such company tapping the region's growth, Chongqing Urban Construction Holding (Group) Co., Ltd, signed an agreement to receive supply chain financing from UOB (China) at the Chongqing branch opening today.

UOB's Chongqing branch is a complement to its Chengdu branch - the bank's first branch in western China. Over the past three years, the UOB Chengdu branch has become one of the fastest growing branches in the UOB (China) network. The branch has deepened its relationships with clients and grown its client base by more than 50 per cent. In the first half of 2014, the branch's corporate loans increased by 34 per cent year-on-year, while deposits grew by 210 per cent over the same period.
