

Dear Client,

Our bank is an advocate of good practices in the foreign exchange (FX) market which has been and will continue to contribute to the foundation for sustainable growth of foreign exchange activities in all financial centers.

As an advocate, we are supporting the FX Global Code which was recently developed through a partnership between central banks and market participants from 16 jurisdictions across the globe.

We are pleased to share our practices for the conduct of our FX business which is consistent with the FX Global Code via the hyperlink below. We hope this sharing will provide you the transparency on how we handle FX transactions with your good organisation and other market participants.
